Notes: 2007 MRFSS data is preliminary, data is subject to change. Small sample sizes may lead to large incidences of error in estimates. In September 2004, the Gulf State Park pier was destroyed and no longer available to shore-based anglers who typically target and catch Spanish mackerel.

MRD survey results monthly directed Recreational Spanish mackerel catch per hour fished for Baldwin Co. anglers fishing in shore, charter and private boat modes using coastal access sites and number of anglers interviewed.
